

Juanita Ford Boothe

Juanita is an Environmental Engineer in the Environmental Affairs and Crisis Management area of Strategy, Analysis and Performance Department at Memphis Light, Gas and Water Division. She has earned a Bachelor of Science Degree in Civil and Environmental Engineering from Christian Brothers University, and is currently pursuing a Masters of Education in Instructional Design.

She has been with MLGW for 14 years, and actively oversees the timely resolution of environmental issues and concerns. She serves as a MLGW liaison for regulatory agencies on the federal, state and local level on issues ranging from storm water pollution to the discharge of hydrostatic test water.

Juanita is certified Six Sigma Green Belt and Fundamentals of Erosion Prevention and Sediment Control Level I & Level II certified. She is also Hazardous Waste Operations & Emergency Response (HAZWOPER) trained and certified as an Asbestos Hazard Emergency Response Act (AHERA) Abatement Supervisor. She has received training in Project Management Professional (PMP) Fundamentals and National Incident Management Systems (NIMS) IS-100 and IS-700.

She currently serves as a volunteer for the United Way of the Mid-South Certification and Allocations committee. She is a member of the Western Region Tennessee Storm Water Association, Green Matters for the Women of Shelby County and the Society of American Military Engineers.

Juanita recently completed the Leadership Memphis 2017 Spring FastTrack program and is currently serving as a mentor for Envision, Lead and Grow, an entrepreneurship mentoring program for young girls. She has presented for Girls Experiencing Engineering at the University of Memphis, Youth Villages and spoken on panels related to corporate philanthropy.
